There was no premium on currency yesterday on Thursday. The proportion of cash used in the settlement of balances at the Clearing House, which on Thursday was 25 per cent, was 34 per cent yes-terday. If the financial situation continues to improve it is thought that next week will witnes the cancellation of a large amount of Clearing House certificates. The inquiry for funds and ver, is on the increase. A man in a position to within a few days the withdrawals of posits from the savings banks of this city had shown an important increase. No reason for this increase is known. Bankers are becoming somewhat impatient at the delay over the Silver Re-peal bill in the United States Senate, and there were disquieting suggestions from Washington yesterday to the effect that unconditional repeal would not be obtained. Any compromise on the silver question is dreaded, but some well-informed bankers are fearful that the delay will increase chances of an accident to the Repeal bill. Wall Street was more reassured late in the day by cates would submit to no compromise.

The stock market was disfigured early yesterday by a sharp break in Chicago Gas, owing to the announcement of the large new bond issue of one of the principal constituent companies of the trust.

R. G. Dun & Co. In their weekly review of business say that "the improvement has extended from the banks to the mills. The condition of great industries has distinctly mended, though still seriously depressed. More important by far than any rise in stocks is the fact that more works have resumed during the last week than have stopped operation, so that the producing force of the country, after months of constant decline, has begun to increase. Dispatches mention twenty-eight textile and thirty metal works which have resumed, some only with part force, while twenty-eight textile and in iron works have stopped. It is expected that most of the Fail River mills will start soon, the hands assenting to reduced wages.

"Incomplete returns of assets and liabilities in about 1.580 failures amounted to \$5,46,00, and the returns for the remaining failures of the month will probably raise the amount above \$89,09,000. THE SITUATION IN RHODE ISLAND. Ex-Governor Royal C. Taft, of Rhode Island, was the Fifth Avenue Hotel last evening. To a Tribune reporter he said: "The business outlook in Rhode Island is improving. Money is easier. In fact, there is plenty to be had. The banks there have sent some money to New-York. The cotton mills have felt the hard times less than the woollen mills, as the cotton market has been good for a long time. The woollen mills are picking up somewhat, though. The Fall River mills, which have been closed, will start up next week with wages re-duced 10 per cent. Wages generally will be reduced about 10 per cent. There will be no trouble, as the nill hands expect it. There is not a great demand for goods, but it is hard to keep people out of

THE BANKS LIKELY TO SHOW A SURPLUS CLARK THREAD MILLS SHUT FOR A TIME. The Clark O. N. T. Thread Company closed down all its spinning and twisting mills in Newark and Kearny last night. The mills are to remain closed two weeks. The cause of the suspension is the prevailing depression in business and the consequent accumulation of stock. It is also understood that the mills will not fully resume operations until the company is relieved of apprehensions regarding

hands and have a payroll of about \$40,000 weekly. A large portion of Newark, as well as Harrison and Kearny, is dependent upon the trade of the mill operatives. The Clark company, which formerly reason of the protective duty on cotton thread, which was formerly nearly all made in Great tilled with many miles of elaborate machinery, most of which was made in American machine shops. AMY BOUCICAULT'S TESTIMONY TAKEN. Judge McAdam, in the Superior Court, yesterday took the testimony of Amy Boucicault in her su for an absolute divorce from Aubrey Boucicault, the theatrical manager. On the stage Mrs. Boucicault is known as Amy Bushy. She wishes to join William H. Crane's company to go out of town, and so her testimony was taken before the trial. Her counsel is Colonel Ingersoll, and Mr. Bouci-cault was represented by A. H. Hummel. Colonel Ingersoll waived counsel fees and alimony on behalf of his client, so Mr. Hummel consented to have the testimony taken lefore trial.

She said that she was married to Bouelcoult on January 11, 1892. She alleges that in September of the same year he was intimate with Victory Bate-man and Ada Dougan. Bouchault specifically de-nies the charge as to Victory Bateman, and de-nies generally all other charges.

It pointed out the advantages of the system and strongly urged its adoption.

A WORKMAN KILLED BY A FALLING SCAFFOLD A fatal accident occurred yesterday afternoon in the new building of the Edison Electric Illuminating Company, at No. 529 Pearl-st., near Elm-st. The lower part of the building is already occupied, but portions of the upper floors and of the roof are not completed. About twenty men in the employ of the Gustavina Fireproof Construction Company, of Eleventh-ave, and Fifty-seventh-st., were at work yesterday afternoon in the eighth story lay-ing the firebrick arches which will support the roof. They worked on platforms, which were sus-pended from the iron beams by means of slender iron hangers. One of the hangers broke a few minutes before 3 p. m., and let fall a scaffold on which three Italians were at work. The men fell with the scaffold through openings in several floors to the fifth floor, a distance of about fifty feet. One of them fell on an iron beam and was killed instantly. He was Francisco Gaeto, of No. 328 East Seventy-eighth-st. Antonio Brenhombre, of No. 36 employment, and they realize that they will have to take less for the present.

When the plans of the Rapid Transit Commissioners for a subterranean route met such an ignominious fate last winter it was believed that the underground system would have to be given up. and relief found in an extension of the elevated railroads. To this end the commissioners directed their attention. Plans for a complete elevated sys-tem, extending all over New-York, have been nearly completed. All the time, however, moneyed men have had their eyes on the old plans, and many abortive attempts have been made to organize company to carry them out. The immense amount of money required caused all these to fail. Many propositions were made to the commissioners, but as all involved some pledge from the city guaranteeing the bonds of the company-a thing prohibited by the State Constitution-they had to rejected. For several months, however, five men, well known in the world of finance, but whose names are withheld for the present, have been cussing the matter, and their deliberations resulted in an intimation of their wishes being made to the commissioners at their last meeting. This intimation, which was made through a prominent Wallst. firm, was not, technically speaking, a communication requiring a definite answer from the Com missioners, but rather an announcement that such a communication would be made, probably at the

Boys' School Suits as low as \$2.50 (all wool) but special value at \$4 and \$5 in double breast. All at our Broadway and Canal St. store.

Have you seen our English Hat at \$2.50? Both stores.

HACKETT, CARHART & CO.

RADWAY'S PILLS,

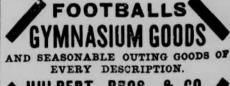

To men who have got to economizeor think they have-perhaps the little seare may be a blessing after alleven in the short run. Perhaps some man who used to "knock under" to the tailor may be led to try one of our Fall overcoats at a half or a third less.

He can't possibly go wrong-they are so regally made; and we stand back of them loyally.

Our \$3 derby is out-way out; we can't keep it back. The fashionable hatter's blocks.
